

Stacking unit

Customized solution

Hand in hand for tomorrow

Stacking unit

Linear direct drive axis system for stacking processes in the field of e-mobility

Your advantages and benefits

- **Process-reliable handling** of electrode material or fuel cell components
- **Residue-free gripping** due to attached area gripper
- **High dynamics** due to linear direct drives
- **Compact design** due to optimized ratio of overall length and stroke
- **Maximum flexibility** due to an adjustable number of active slides

Technical data

- | | |
|-------------------------------|----------|
| • Cycle time (sheet-to-sheet) | < 1.5 s |
| • Repeat accuracy | ±0.01 mm |
