

Guide for the clamping jaw Quickfinder

Steps for using the Quickfinder:

1. **Select feed manufacturer:**
Select the manufacturer of your feed from the drop-down list.
2. **Specify feed type and size:**
Specify the type and size of your feed.
3. **Add details (optional):**
Select features such as serrations (if available).
4. **Filter results:**
Use the filter options on the left to narrow down the results:
 - **Product group:** Filter by the desired product group (e.g. base jaws, claw jaws).
5. **All details at a glance:**
Reveal the product information to see all the important details such as clamping ranges, dimensions and specifications. This allows you to directly compare the differences between the clamping jaws.
6. **Print view:**
Make sure that all product information is expanded. Then click on "Print view" to print out the complete results.
7. **Use our Easy Jaw configurator:**
Customize clamping jaws quickly and easily to suit your requirements – click on "Configure now" and design your individual solution.
